POKER MASTERY / TRAINING PLATFORM

A clearer way to study poker.

Local practice. Live decision support.
Structured hand review.

TEXAS HOLD'EM • PLO4 • PLAY, ANALYZE, REVIEW

One workspace. Three learning loops.

Practice a hand, understand the decision, then revisit the evidence.

01

PLAY

A six-seat table against five heuristic bots.

02

UNDERSTAND

Live context for price, equity and stack depth.

03

REVIEW

Completed hands, decision notes and study cues.

From first hand to useful review.

A simple cycle keeps gameplay and study connected.

01

DEAL

Choose a game

02

DECIDE

Take a legal action

03

SHOWDOWN

Compare eligible hands

04

REVIEW

Study the hand history

FOLD · CHECK · CALL · BET / RAISE · ALL-IN
Actions and betting limits are validated by the local game engine.

Two formats. Distinct hand-building rules.

TEXAS HOLD'EM

2 HOLE CARDS

Best 5-card hand

Use any combination of hole cards and community cards.

POT-LIMIT OMAHA

4 HOLE CARDS

Exactly 2 + exactly 3

Use two hole cards and three community cards at showdown.

TRAINING TABLE / 6 SEATS / 5 BOTS
PLO4 defaults: $1/$2 blinds · $200 stacks · no rake or fees

Decision context, surfaced at the table.

Five lenses connect the action to its mathematical context.

POT ODDS	Equity threshold for a call
ESTIMATED EQUITY	Estimated share of the pot
CALL EV	Expected value of calling
SPR	Effective stack ÷ pot
DRAW ANALYSIS	Outs, blockers and redraws

READ AS ESTIMATES

Equity uses sampling.
Bots are heuristic.
Multiway spots may be simplified.

Not solver / GTO advice.

The coach explains a scenario; it does not predict the next card or guarantee an outcome.

Turn completed hands into study cues.

SESSION REVIEW

Cards revealed at showdown
Actions, contributions and payouts
Coach notes and study prompts

SESSION BOUNDARIES

History is stored in local memory
Server restart clears the session
Study targets are prompts, not verdicts
